

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

December 16-31, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 16-31, 2006.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2005

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

SUMMARY OF CEQA DOCUMENT SUBMITTALS BY YEAR AND BY TYPE

Year	NOP	ND/MND	EIR	NOD	NOE	EIS	EA	Other	Total Documents
1999	602	2007	481	1808	2699	22	41	177	7,837

<u>Documents Received on Monday, December 18, 2006</u>			
2002114002	Giacomini Wetland Restoration Project California State Lands Commission --Marin Restoration of dairy pasture to tidal wetland.	EIR	01/31/2007
2006081082	Mid-Valley Pipeline Coachella Valley Water District Indio, Palm Desert, La Quinta, Indian Wells--Riverside Construction of a system to pump water from the Coachella Canal and pump it through a new pipeline in the CVSC to new storage reservoirs at the CVWD Water Reclamation Plant No. 10, thus providing a substitute source of water, together with recycled water, for irrigation of up to 51 golf courses in the mid-Coachella Valley. This source substitution would reduce groundwater pumping and therefore overdraft in the portion of the valley - a project identified and evaluated at a programmatic level, including water quality and hydrologic effects, in the Coachella Valley Water Management Plan and Program EIR (CVWD, 2002). The present document is a Subsequent EIR that tiers off the Program EIR.	EIR	01/31/2007
1990030006	Willits Bypass Project Caltrans, Planning Willits--Mendocino The California Department of Transportation and the Federal Highway Administration propose to construct a new segment of U.S. 101 that would bypass the City of Willits in Mendocino County.	FIN	
2001012097	East Cliff Drive Bluff Protection and Parkway Project Santa Cruz County Live Oak--Santa Cruz Three separate but inter-related projects: (1) construction of an engineered bluff protection structure (soil nail wall) within the East Cliff Drive ROW from 33rd to 36th Avenues, new and replacement beach access stairways, demolition of abandoned restroom, removal of rubble and relocation of rock riprap between 33rd and 36th Avenues; (2) construction of road improvements, drainage structures, pedestrian & multi-use path improvements from 32nd Avenue to Larch Lane, landscaping and railings; and (3) construction of a second bluff protection structure at the end of 41st Avenue (The Hook), replacement of stairway, and road and path improvements similar to project #1 above.	FIN	
2006102071	Kelly Cabin Canyon Complex Prescribed Burn Project at Henry W. Coe State Park Parks and Recreation, Department of Gilroy--Santa Clara The Department of Parks and Recreation proposes to administer a prescribed burn of 4,680 acres of chaparral and oak woodland over a three to five-year period. The project area is divided into three plots of 980 acres, 1,650 acres, and 2,050 acres. One plot will be burned every one to two years until all three plots have burned. Each plot will take a minimum of two days to complete, and may take several weeks depending on weather conditions.	FIN

2006121065	<p>22716 and 22706 Pacific Coast Hwy Malibu, City of Malibu--Los Angeles</p> <p>The proposed project at 22716 Pacific Coast Highway consists of the demolition of an existing 8,003 square foot vacant restaurant building (formerly Pierview/Malibu Cantina) and the construction of a new, 7,514 square foot restaurant. The new restaurant is proposed to be two stories in height and would include kitchens, dining rooms, bars/lounge areas, and outdoor patios. The structure is proposed to be connected to the proposed (adjacent) restaurant at 22706 Pacific Coast Highway by a landscaped outdoor deck.</p> <p>The proposed project at 22706 Pacific Coast Highway consists of the demolition of an existing 7,732 square foot vacant restaurant building (formerly Windsail Restaurant) and the construction of a new, 5,904 square foot restaurant. The new restaurant is proposed to be a single-story structure and would contain kitchens, bar/lounge areas, dining rooms, and indoor/outdoor seating.</p>	MND	01/16/2007
2006121068	<p>Acute Care Pavilion Expansion San Diego, City of San Diego--San Diego</p> <p>Site Development Permit (SDP), Planned Development Permit (PDP), and Conditional Use Permit (CUP) Amendment to existing CUP 4741/SDP 4742/PDP 267312 and MHPA Boundary Adjustment to demolish an existing parking lot, expand and construct a new 5-level, 272,274-square foot building addition to an existing hospital on a 26.98-acre site, within the Children's Hospital and Health Center Campus. Additionally, an associated emergency generator facility contained within a one-story, 85 by 40 foot building would be constructed on an adjacent 2.39-acre, included within the 26.98-acre site. An existing propane tank would be relocated adjacent to the new generator facility. The CUP amendment would also allow the addition of 12 guest units to the previously approved Ronald McDonald House, provide a comprehensive sign plan for the Acute Care Pavilion and previously approved Parking Garage/Ronald McDonald House Facility, and reduce the number of required parking stalls in the previously approved Parking Garage from 1,051 to 1,035. A SDP would be required for the project's encroachment into Environmentally Sensitive Lands. A PDP would be required to permit a deviation from the CO-1-2 Zone maximum building height of 60 feet to a maximum height of 96 feet and to allow development within the 10 foot front yard setback requirement of the underlying CO-1-2 Zone. A CUP amendment would be required for hospital uses within a commercial zone. Additionally, the MHPA Boundary Adjustment is required to mitigate MHPA encroachment by construction of the proposed emergency generator facility. The site is zoned CO-1-2 and lies within the Serra Mesa Community Plan area.</p>	MND	01/16/2007
2006121075	<p>Atascadero City Hall Repair and Rehabilitation Project Atascadero, City of Atascadero--San Luis Obispo</p> <p>The project consists of a series of actions for the repair, maintenance and rehabilitation of Atascadero's City Hall and would occur in three phases. Funding for each phase of the project is derived from separate sources with funding for the first phase of the project coming from a State grant. The first phase of the project addresses specific items as delineated by a team of architectural and engineering consultants retained by the City of Atascadero. The items fall within seven major categories of work, as follows: (1) exterior cladding; (2) roofing, waterproofing, and</p>	MND	01/17/2007

2006122065	<p>skylights; (3) interior partitions; (4) floor and roof structure repairs; (5) plumbing system repairs; (6) heating, ventilation, and air conditioning repairs; and (7) electrical lighting, power and communication repairs.</p> <p>East Contra Costa County Courthouse Judicial Council of California Pittsburg--Contra Costa The Administrative Office of the Courts (AOC), the staff agency of the Judicial Council of California, is proposing construction of a new courthouse in Pittsburg. The Courthouse will be on Center Avenue directly south of the existing Courthouse and will face south towards Center Drive. The project site will cover approximately six acres. The proposed new Courthouse will be two stories tall, have approximately 71,000 square-feet of space for seven courtrooms and other Court-related facilities, and will have approximately 200 parking spaces. The City of Pittsburg will provide additional parking spaces for the courthouse. Approximately 60 employees will work at the facility. The new courthouse will improve Contra Costa residents' access to judicial facilities, provide courthouse facilities that meet current building standards for public use; provide facilities to support new judicial services and additional judges; and provide improved security for visitors, judges, and courthouse staff. After completion of the new Courthouse, the AOC will demolish the existing Courthouse.</p>	MND	01/16/2007
2006121069	<p>Spyglass Ranch Specific Plan Lake Elsinore, City of Lake Elsinore--Riverside The proposed project would be a master planned community, consisting of residential and open space/recreation within the City of Lake Elsinore. The City of Lake Elsinore General Plan currently designates the project site as Future Specific Plan (3 dwelling units per acre), Freeway Business, and Neighborhood Commercial. The project includes a General Plan Amendment to designate the project site as the Spyglass Ranch Specific Plan (SP) and increase the maximum density to 4 dwelling units per acre. The project proposes up to 1,035 residential units, in conjunction with 6.5 acres of parks, and 88.2 acres of open space/conservation. The plan also allows for commercial-retail uses if multi-family residential units are not developed within the project site.</p>	NOP	01/16/2007
2006122060	<p>Mokelumne Watershed Master Plan East Bay Municipal Utility District Jackson--Amador, Calaveras, San Joaquin Prepare and implement a land use Master Plan for EBMUD properties and facilities located in the Mokelumne River drainage surrounding Camanche and Pardee Reservoirs.</p>	NOP	01/16/2007
2006122064	<p>City of Pinole General Plan and Zoning Ordinance Update and Fee Studies Pinole, City of Pinole--Contra Costa The proposed project consists of the adoption of an updated General Plan (GP) as well as an update to the Zoning Ordinance for the City of Pinole. It is anticipated that the revision process will result in the adoption of a new GP in mid-2008 to provide policy guidance related to land use, transportation, public services, and related issues over the next 20 years. The City of Pinole will be the lead agency for preparation of a program-level Environmental Impact Report (EIR) on the GP Update. 2006121066	ENV-2004-2839-MND Los Angeles City Planning Department --Los Angeles A proposed 20-lot subdivision for single-family homes on a site consisting of a gross area of approximately 219,128 square-feet, currently zoned RA-1; Zone Change from RA-1 to RS-1 over that portion (approximately 89%) of the site having a land use designation of Low Residential; Zone Variance from RA Zone development standards over that portion (approximately 11%) of the site having a land use designation of Very Low II. The variance applies to one partial and two complete proposed lots of the project and include a minimum lot area of 7,500 square-feet in lieu of the 17,500 square-feet, a minimum lot width of 60-feet in lieu of 70-feet, a side yard of 5-feet and rear yard of 20-feet in lieu of a side yard of 10-feet and rear yard of 25%. Of lot depth not to exceed 25-feet; potential Project Permit Compliance review; project is subject to haul route.	Neg	01/16/2007
2006121067	ENV-2006-6122-MND Los Angeles City Planning Department --Los Angeles Preliminary Parcel Map, Coastal Development Permit, Specific Plan Project Permit Compliance, and Mello Act Compliance Review to allow the construction of a three-story, four-unit condominium with nine parking spaces; Zoning Administrators Adjustment for yard reductions and Specific Plan Exception for height limit on a 12,863 square-foot site, in the R3-1 Zone, and the demolition of two single-family dwellings and two detached garage buildings.	Neg	01/16/2007
2006121070	PC 06-37 / Tentative Tract Map 17687 Twentynine Palms, City of Twentynine Palms--San Bernardino Subdivide approximately 200 acres into 79 residential lots with six common lots consisting of open space. The project is located on a vacant and previously unimproved site, generally located east of Utah Trail, south of Morning Drive and west of Wilshire Avenue. The site is zoned Single-Family Residential Estate, which allows 1 dwelling unit per 2.5 acres. The project proposes a density of 1 dwelling unit per 2.5 acres. The project is designed with a cluster development concept to allow for the provision of high quality amenities, including 56 acres of open space devoted to walking trails.	Neg	01/16/2007
2006122061	Putah Creek Public Access Enhancements Yolo County Planning & Public Works Department Winters--Yolo Renovation of four contiguous existing popular public access points along Putah Creek which offer opportunities for fishing, hiking, swimming, non-motorized boating, nature study, and picnicing. Construction will include permanent restroom facilities, informal monument signs, parking facility improvements, additional pedestrian trails and universally accessible trails and fishing platforms. Existing unstructured trails that are degrading wildlife habitat will be blocked. Unstructured parking areas will be removed, and traffic boulders will be installed to restrict vehicle access to sensitive riparian and oak woodland habitat. All facilities will comply with the Uniform Building Code and State Title 24.	Neg	01/16/2007

2006122062	<p>Proposed Townhouses at 1335 Adobe Drive, Pacifica, California Pacifica, City of Pacifica--San Mateo</p> <p>The proposed project would consist of the construction of 7 condominium units within three separate structures, a 20-foot wide driveway and the installation of new landscaping, all on a vacant 18,750 square foot lot. Each structure would be three stories and reach a peak height of 34 feet. The structures would occupy 7,792 square feet of lot area, roughly 36% of the lot would be landscaped and the driveway would occupy the remaining lot area. In addition, seven large mature trees currently occupy the lot. The project would entail removing three of the trees and preserving four of them. The trees slated for removal are diseased, while the remaining trees are healthy and will be protected. The proposed landscaping includes the planting of several new trees, including white birch and Japanese maples.</p>	Neg	01/16/2007
1988022902	<p>Temecula Valley Recycled Water Pipeline Eastern Municipal Water District</p> <p>EMWD constructed this project which was placed into operation on November 16, 2004. On October 25, 2005, the Court ordered EMWD to prepare a supplemental CEQA document to address: 1) the composition of the water being exported via the pipeline and any resulting impact on water quality and wildlife in the Santa Margarita River Basin; 2) the impacts on growth within EMWD's service area; and 3) possible cumulative impacts due to the pipeline's operation in conjunction with other projects.</p>	SIR	01/31/2007
1990030006	<p>Willits Bypass Project Caltrans, Planning Willits--Mendocino</p> <p>The California Department of Transportation and the Federal Highway Administration propose to construct a new segment of U.S. 101 that would bypass the City of Willits in Mendocino County. The proposed bypass would be a four-lane freeway with full access control and grade separation. The existing US 101 facility within the project study limits is a two-lane conventional highway, which currently serves as the Main Street through the town of Willits. The purpose of the project is to reduce delays, improve safety, and achieve a minimum level of service (LOS) of at least 'C' for interregional traffic on US 101 within the vicinity of Willits through the 20-year design period. One no-build alternative and four build alternatives were considered in the Draft EIS/EIR. Since public circulation of the Draft EIS/EIR, revisions were made to one of the build alternatives, which resulted in the Modified Alternative J1T. The Modified Alternative J1T has been selected as the preferred alternative because it would have the least overall impact to the environment. The proposed new US 101 bypass would diverge from the existing facility approximately 0.8 mi. south of the Haehl Overhead. The alignment would then traverse the valley east of Willits and converge back with the existing facility 2.9 km south of Reynolds Highway. The overall length of the bypass would be approximately 5.8 miles.</p>	NOD	
1995083033	<p>September Ranch Subdivision Monterey County</p> <p>The proposed project involves the subdivision of 891 acres into 73 market rate residential lots, 15 units of inclusionary housing, and a 20.2 acre lot for the existing equestrian facility; 800.9 acres is proposed as open space. Other appurtenant facilities and uses would include separate systems for the distribution of potable water, water tanks for fire suppression, a sewage collection and treatment system,</p>	NOD

2005052060	State Route 28 EIP Project Caltrans #3 --Placer Caltrans, the Tahoe Regional Planning Agency (TRPA) and the Federal Highway Administration (FHWA) propose to construct water quality improvements, bike lanes, and operational improvements from Tahoe City to the Nevada state line, except for the limits of the Kings Beach community.	NOD	
2005122114	Tahoe Estates Erosion Control Project (PEAQ T20050978) Placer County Planning Department --Placer The project area is located immediately adjacent to Lake Tahoe. Excessive runoff is generated by impervious residential development, including paved and unpaved roadways and rooftops. A variety of unstable sediment sources exist in the project area, including eroding road shoulders, cut slopes and two unpaved County maintained roadways (Wildrose Drive and Laurel Avenue). Storm water runoff in the project area typically flows down unstable earthen road shoulders and into drainage systems that quickly convey sediment and nutrients to Lake Tahoe, contributing to the reduction of clarity of the lake.	NOD	
2006011080	Crafton Hills College Master Plan San Bernardino Community College District Redlands, Yucaipa, Highland--San Bernardino Crafton Hills Community College (CHC) was built in the 1970s as part of the San Bernardino Community College District (SBCCD). CHC currently serves the East Valley area of the SBCCD. CHC's current enrollment is approximately 5,400 students per semester (2004/2005 academic year). CHC is one of the 108 colleges in the California Community College system, the largest college system in the world. In 2002, the voters approved Measure P, which granted \$190 million to CHC and San Bernardino Valley College with the goal to improve the facilities at both colleges. With the expectation that the student enrollment would increase by 75% by 2025, the proposed Master Plan outlines the first major additions and improvements to CHC. The purpose of the Master Plan is to develop CHC into distinct, clearly defined areas of interconnected buildings and exterior spaces occupied by related college departments. The proposed Master Plan estimates that various academic buildings, infrastructure improvements and associated parking are required to support a total future enrollment of 11,470 students by the year 2025. 2006071061	CA Dept. of Corrections & Rehab - Tehachapi-Cummings County Water District Recycled Water Use Project Tehachapi Cummings Water District Tehachapi--Kern The project has four components: (1) Recycled Water Agreement between California Department of Corrections and Rehabilitation (CDCR) and Tehachapi-Cummings County Water District (T-CCWD) whereby T-CCWD will purchase from CDCR for a term of 25 years all disinfected tertiary recycled water produced at CCI's new upgraded wastewater treatment plant; (2) Recycled Water Agreements between T-CCWD and Elizabeth Davis Rogers and Richard B. Rogers, Trustees of the Elizabeth Davis Bond Family Trust (Number One), Under Declaration of Trust Dated September 2, 1971, and between T-CCWD and Superior Sod I, LP and R&R Properties I, LLC ("growers") whereby growers will purchase from T-CCWD all disinfected tertiary recycled water which T-CCWD purchases from CDCR for irrigation of turf grass and other beneficial purposes on the 1160 acres in accordance with Title 22 of the California Code of Regulations, state law and T-CCWD's "Rules and Regulations Governing the Use of Recycled Water to be Adopted by T-CCWD as part of the project; (3) Necessary permit(s) from the California Regional Water Quality Control Board, Central Valley Region, with prior review and recommendation of DOHS, under Water Code sections 13263, 13523, or 13523.1, in order for T-CCWD and the growers to use disinfected tertiary recycled water supplied from CCI's new upgraded waste water treatment plant; and (4) Installation of approximately 100 feet of 12" diameter pipe and three sets of valves, meters and back flow prevention devices, whereby recycled water will be conveyed by T-CCWD from CCI's southern and western boundaries to three service connections for the growers.	NOD	
2006082096	Sonoma Transfer Station Permit Revision Sonoma County Sonoma--Sonoma The Sonoma Transfer Station accepts mixed municipal Class III solid waste, commercial and residential demolition debris, yard waste, and recyclable materials. The County is out-hauling all solid waste generated within the county to out-of-county landfills. Some of the destination landfills have extended hours in which they accept waste. To improve the efficiency of this out-hauling, and improve the flexibility of the out-hauling process, the County proposes to revise the current Solid Waste Facility Permit from the California Integrated Waste Management Board. The revision to the permit will allow the contract operator access to the site for processing, compacting, loading transfer trailers, and out-hauling solid waste from the facility to 24-hours a day, seven days per week (adding 11.5 hours to what is currently allowed for this activity). No waste of any type will be accepted during these extended hours. Waste will be accepted only during current public hours of operation (7 am to 4 pm). These extended hours will improve the overall operational efficiency of the facility over the long term.	NOD

2006102071	Kelly Cabin Canyon Complex Prescribed Burn Project at Henry W. Coe State Park Parks and Recreation, Department of Gilroy--Santa Clara The Department of Parks and Recreation proposes to administer a prescribed burn of 4,680 acres of chaparral and oak woodland over a three to five-year period. The project area is divided into three plots of 980 acres, 1,650 acres, and 2,050 acres. One plot will be burned every one to two years until all three plots have burned. Each plot will take a minimum of two days to complete, and may take several weeks depending on weather conditions.	NOD	
2006111056	Treatment Modification at the San Luis O&M Surface Water Treatment Plant for Compliance with the 1998 Disinfection Byproducts Rule Water Resources, Department of Los Banos--Merced The project will include the installation of a Magnapak 50 treatment unit at the existing San Luis treatment plant facilities. The unit will serve approximately 160 State employees and up to 250 daily public visitors to the Romero Overlook Visitors Center and will treat approximately 7 million gallons of water per year.	NOD	
2006128134	Curve Realignment & Culvert Repair/Storm Damage Project Caltrans #3 --Mendocino The project proposes to repair a culvert and realign the roadway on a portion of SR 162. The existing culvert will be removed and replaced due to damage during the winter of 2005. The roadway will be realigned away from the step bank to prevent future damage to the roadway.	NOE	
2006128135	City of Firebaugh Easement Abandonmen Firebaugh, City of Fresno--Fresno The project includes the abandonment of a portion of an easement approximately 235 feet in length and 15 feet in width. That portion of the easement will be deeded to the adjoining property owner.	NOE	
2006128136	Agreement 2006-0114-R4 Magneson Pond Levee Repair Fish & Game #4 --Merced Repair damaged portions of a levee separating a pond from the Merced River.	NOE

Historic Resources Group has updated the City's List of historic properties and recommends the Historic Structures List be amended to delete 5 resources and add 11.	Neg	01/17/2007
2006121072	Project Number R2004-01186-(3), Case Numbers ROAK200400033-(3), RENV200600050-(3) Los Angeles County Department of Regional Planning --Los Angeles An oak tree permit request to authorize the retroactive encroachment into the protected zone of 16 oak trees for previously performed expansions on a property with a single-family residence. Twenty-five Coast Live Oaks (<i>Quercus agrifolia</i>) have been identified within the project vicinity. Oak tree numbers 1 and 3-18 have been impacted. Regional Planning previously approved the conversion of a guest house and garage into a single-family residence on August 30, 1994. Building permits from 1994 approved the addition of a walkway and decks which were not reviewed by Regional Planning. These additions encroached into the oak tree protected zones of trees 12, 13, 14, 15, 16, and 18. The property has since been paved which has modified the drainage of the site, causing a wash to the south of the property to erode, impacting trees 11, 12, and 14. The applicant has attained a Streambed Alteration Agreement (#1600-2003-5055-R5) from the California Department of Fish and Game in order to line the channel with concrete, which affected oak tree numbers 3, 4, 5, 6, 7, 8, 9, and 10. The applicant has also filed a plot plan for the retroactive approval to enclose decks and stairways and to construct a new carport for two tandem parking spaces.	Neg	01/17/2007
2006121073	TR063296/ RENV200500152/ RPAT200500009/ RZCT200500014/ RCUPT200500152 Los Angeles County Department of Regional Planning Torrance--Los Angeles Application for a tentative tract map to construct 58 attached townhomes that will be for sale; a CUP to authorize proposed improvements in Development Program zone; a zone change from M-1 and A-1 to R-3-DP; and a general plan amendment from low density residential and industrial to medium density residential. The proposed townhomes will be two and four-story units (maximum of 44 ft. high) with 131 parking spaces (111 attached garage parking, 5 covered, and 15 guest parking) and a 10,531 sf common open space area. Access will be off of 223rd Street into a gated entry and private driveways. There is a secondary access off of Normandie Avenue for emergency vehicles only. Decorative walls and landscaping will be provided along all property street frontages. Approximately 1,000 cy of cut, 6,000 cy of fill, and 5,000 cy of imported material is proposed	Neg	01/17/2007

2005122137	State Route 132 Interchange Improvements at Bird Road Caltrans #6 Tracy--San Joaquin The California Department of Transportation proposes to improve the intersection at SR-132 and Bird Road in San Joaquin County by constructing an interchange and making related highway improvements. Bird Road at SR-132 is an at-grade intersection, with stop signs on the Bird Road approaches. The at-grade intersection sits in a segment of four lane divided highway about 3.62 km east of I-580/SR-132 freeway-to-freeway interchange, 3.23 km east of the SR-132/Chrisman Road interchange and about 1.61 km west of the I-5/SR-132 freeway-to-freeway interchange. Bird Road is the only at-grade connection to SR-132 in this segment.	NOD	
2006011040	Rodeo Grounds Berm Removal and Restoration Project Parks and Recreation, Department of --Los Angeles The project is intended to restore the natural floodplain, creek channel, and sediment transport systems at the southern end of Topanga Creek, ~ 2,500 feet upstream from the Pacific Ocean. The project consists of the removal of a berm that was installed by the former tenants of the Rodeo Grounds homes. The project grading will affect 1.8 acres of berm and 0.01 acre of delineated wetlands. An additional presently disturbed 12.4 acres will benefit from the removal of some of the exotic vegetation associated with the former residences as well as removal of the berm itself. Removal of the berm will restore over 12 acres of floodplain, allow natural reestablishment of natural creek hydrology and directly benefit endangered steelhead trout.	NOD	
2006071038	Jamul Tribal Final EIS/R Jamul Indian Village --San Diego The Tribal EIS/R addresses the off-reservation environmental effects associated with the proposed gaming facility and hotel complex which consists of 567,094 total square feet of building space. The hotel will include 400 beds in 270,000 square feet, and the casino building will cover approximately 205,194 square feet (73,469 square feet of which will be gaming floor area). Ancillary uses to the hotel and casino complex include a parking garage, tribal center, human resources facility, a wastewater treatment plant, and detention basin. Development will be phased with the construction of the casino in the first phase and the construction of the hotel approximately three years later.	NOD	
2006101008	Palmdale Ditch Enclosure Palmdale Water District Palmdale--Los Angeles The District proposes to enclose approximately 5,200 lineal feet of the open Palmdale Ditch within an underground pipe. The ditch serves as the conveyance for water transferred from Littlerock Reservoir to Lake Palmdale. Replacing this section of the open ditch will protect the water supply and address water quality concerns from trash and septic tanks in the vicinity of the Palmdale Ditch.	NOD

	Construction will also include approximately 150 linear feet of pipe from the well to an existing 48" gravity line in the easterly sidewalk of Sperry Road. Water from the well will be used for agricultural or domestic purposes. An approximate flow rate of 2,000 gpm is anticipated.		
2006122077	PLP06-0056, Trione Winery Sonoma County Permit and Resource Management Department --Sonoma This request is to remodel the historic Nervo Winery. A winery has existed on the site for almost 100 years. The Use Permit request is for a winery with a maximum annual production capacity of 25,000 cases with public tasting and 24 special events a year with a maximum of 200 people per event. The tasting room would be open to the public from 10 am to 5 pm, seven days per week. Existing buildings would be demolished and rebuilt for a net increase of 556 square feet and a total of 17,698 square feet. There would be up to three full time winery employees, and part time employees as needed during the crush season, and additional temporary employees as needed during special events.	MND	01/19/2007
2006122080	Introduction of Non-native Bumblebees for Pollination of Field Crops in California Food and Agriculture, Department of --San Joaquin, Stanislaus, Santa Cruz, Santa Clara, Merced, ... The proposed project consists of a request for a permit to allow the introduction of the non-native bumblebees <i>Bombus impatiens</i> as a pollinator for fruit, nut and vegetable crops in the state of California. Source of <i>Bombus impatiens</i> and all constituents is Koppert Biological Systems, State of Michigan. The timing of introduction would be from weeks 3 through 22 of the calendar year. Pollination duration in the field would be for a maximum of 5 weeks.	MND	01/19/2007
2006122090	Greenhorn Campground Pipeline Project Nevada County Irrigation District Grass Valley--Nevada The Nevada Irrigation District proposes to install a new treated water pipeline to serve the Greenhorn Campground at the District's Rollins Lake Reservoir. The existing potable water wells are no longer usable for consumption and treated water is being trucked to the campground. The proposed project will extend a water pipeline from the existing District water line at SR-174 to serve the Greenhorn Campground. The project consists of constructing a new water line along Greenhorn Access Road from SR-174. This would require approximately 7900 linear feet (lf) of pipe. Pipe installed along SR-174 would be 10" in diameter and on Greenhorn Access Road the pipe would be 8" in diameter, reducing to 4" diameter in the campground.	MND	01/22/2007
2003092078	Shingle Springs Casino Project Shingle Springs Band of Miwok Indians --El Dorado The proposed project includes the development of a casino and hotel complex. Together, the casino and hotel complex totals 381,250 square feet. The 250 room hotel makes up approximately 143,000 square feet of the total square footage.	NOP	01/19/2007

2006121090	Hillside Management Zone Ordinance Update Sierra Madre, City of --Los Angeles The Hillside Management Zone Ordinance Update is a revision and clarification of the existing Hillside Management Zone Ordinance, which includes an amendment to the City of Sierra Madre Zoning Map and amendments to the Municipal Code text. The HMZ Ordinance Update proposes to improve development standards relative to fire hazards, open space, aesthetics, grading limits, height limits, and to protect the natural habitat within the hillside area.	NOP	01/19/2007
2006122081	East Bay Auto Dealership Project Redwood City Redwood City--San Mateo The proposed project is the redevelopment of two parcels approximately 14.3 acres in area from their current use as the Century Park 12 cinema and parking lot complex to automobile sales with up to three dealerships. The ultimate project will involve the City of Redwood City, the property owner (Syufy Enterprise), and the automobile dealerships. The City of Redwood City would enter into a 50-year land lease with the property owner and, in turn, sub-lease the property to up to three individual automobile dealers. However, because the proposed use will include outside vehicle display, a Use Permit will be required.	NOP	01/19/2007
2006121086	EA HN 1-06; Vesting Tentative Parcel Map No. 11273 Kern County Planning Department Bakersfield--Kern Vesting Tentative Parcel Map 11273 proposing to divide a 47.56-acre site into 37 lots ranging in size from 23,974 square feet (net) to 4.48 acres for Industrial development, with three limited design variations to the Land Division Ordinance, and a development variation to the Land Division Ordinance to allow a cul-de-sac in excess of 800 feet.	Neg	01/19/2007
2006121088	Petrogulf Corporation Fresno County Firebaugh--Fresno Allow an exploratory gas well and production facilities on a 37,500 square-foot portion of a 104.41-acre parcel of land in the AE-20 (Exclusive Agriculture, 20-acre minimum parcel size) District. If natural gas is discovered, a 650 foot pipeline will connect the production site with the existing Arroyo Pipeline, located on the sample parcel of land.	Neg	01/19/2007
2006121089	West Fontana Channel Improvement Project San Bernardino Flood Control District Fontana--San Bernardino Expansion and lining of existing West Fontana Channel, re-sizing of two existing culverts, and construction of retention/flow-by basin at existing abandoned quarry pit adjacent to channel. Abandoned quarry pit will act as retention/flow-by basin that will reduce flows in channel. Proposal consists of three-phased channel improvement project.	Neg	01/19/2007
2006122075	Tavern Road Mixed Use Development Project Mammoth Lakes, City of Mammoth Lakes--Mono The proposed Tavern Road Mixed Use Development consists of an affordable housing and commercial development comprised of 31 affordable housing units and approximately 5,332 square feet of retail space and 4,105 square feet of office	Neg	01/19/2007

	the San Francisco Zen Center and Marin County. This Draft EIS/EIR analyzes three Restoration Alternatives, six Public Access Alternatives, four Bridge Alternatives, and five Fill Disposal Alternatives.		
2006052177	Revised Parcel Map 06-13, Richard Swierstra Tehama County Planning Department --Tehama To subdivide approximately 31.67 acres into four parcels: a 2.7-acre parcel, two 2.3-acre parcels, and an approximately 29.6-acre remaining lands parcel.	MND	01/22/2007
2006072070	Application 06-029 (Michel) Sutter County --Sutter A request for tentative subdivision map approval to merge and re-subdivide 81.9 acres into a 1.9, 20, 20, and 40-acre parcels where three parcels sized 2.21, 39.77, and 40-acres exists today.	MND	01/22/2007
2006121092	Netta Terrace San Diego, City of San Diego--San Diego Street Vacation, Planned Development Permit (PDP), and Tentative Map (TM) to allow the creation of seven, 10,000-square foot minimum residential lots, for the construction of 7 single-family detached homes with two car garages. The 1.96-acre site is located on a vacant lot on the north side of Cervantes Avenue, west of Radio Drive, in the RS-1-4 Zone of Southeastern San Diego Planned District, in the Southeastern San Diego Community Plan area and Council District 4.	MND	01/22/2007
2006121094	El Monte Retail Project El Monte, City of El Monte--Los Angeles The project involves the phased demolition of both the existing 106,550 square foot Sam's Club and the adjacent 36,293 square feet of retail uses, and the reconstruction of an approximately 135,000 square foot Sam's Club. In addition, a gas station will be constructed in the southwestern corner of the project site, along Lower Azusa Road.	MND	01/22/2007
2006121095	Santa Paula Air Park Specific Plan Santa Paula, City of Santa Paula--Ventura The Air Park Specific Plan identifies the vision for the area and includes the distribution, location and extent of allowed land uses, distribution and extent of infrastructure proposed, and the identification of regulations and guidelines for new development. The plan area divides the area into two sub-zones Airpark-1 and Airpark-2. Airpark-1 would accommodate the development of 37 airplane hangars/residential condominiums and Airpark-2 would accommodate the future redevelopment of an existing residential/industrial area into light industrial and outdoor storage uses. Specific development plans for the redevelopment of Airpark-2 are not available. Much of the existing development in the northern plan area is located within the Santa Paula Airport inner safety zone which prohibits structures.	MND	01/22/2007

2006121096	Specific Plan Amendment 06-011 and Tentative Tract Map 32386 (SPA06-011 & TTM 32386) Corona, City of Corona--Riverside Specific Plan Amendment 06-011 involves annexing the 75-acre project site into the Mountain Gate Specific Plan and establishing a residential zoning of Single Family Residential 14.4 or SFD 14.4. Accompanying development standards are also proposed for the SFD 14.4 designation. TTM 32386 is a proposal to subdivide the 75 acres into 49 single family residential lots under the proposed SFD 14.4 designation of the Mountain Gate Specific Plan.	MND	01/22/2007
2006122088	Jamestown Sanitary District Pipeline Rehabilitation Project Jamestown Sanitary District --Tuolumne The project will replace approximately 13,119 linear feet of sewer pipeline by utilizing open trench and trenchless construction methods, and is being implemented to address overflow prevention, reduction of inflow and infiltration, hydraulic constraints. Approximately 6500 feet of that pipeline will be replaced within existing alignments located in roads, streets and other disturbed, graded areas. Approximately 1,500 feet of pipe will be placed in new alignments, located in graded areas, new highway/street alignments, and Caltrans rights of way.	MND	01/22/2007
2005061041	San Pedro Waterfront Project Los Angeles City Harbor Department Los Angeles, City of--Los Angeles The proposed project involves a variety of land uses within the project area, including public waterfront and open space areas, commercial development, transportation and parking facilities, and expansion of cruise ship facilities and operations. The project includes specific development proposals over a 5-year timeframe, plus creation of approximately 497,800 square feet (11.43 acres) of new water area (accounting for water created by 9.21 acres of cuts and 2.22 acres from removal of existing wharf, floating docks, and marina slips). Approximately 281,000 square feet (6.45 acres) of existing water would be covered, resulting in a net increase of approximately 216,800 square feet (4.98 acres) of new water within the harbor. They would create approximately 808,000 cubic yards of dredge material. Disposal of clean dredge material is planned for LA-2 or LA-3 offshore disposal, with upland disposal of contaminated sediments.	NOP	01/22/2007
2006121093	Edgewater Lake Communities Chino, City of Chino--San Bernardino Proposed land uses are situated around a series of five manmade lakes within the 273-acre Edgewater lake Communities Project site and include a range of residential densities, open space areas, and potential inclusion of parcels for a church and school. Dwelling units are planned to be contained within low-medium-, and high-density residential areas. Densities are expected to range from approximately 5 dwelling units per acre (du/ac) to approximately 16.0 du/ac. Open space areas will be devoted to recreational use, and passive use containing natural features. The proposed plan includes a circulation system designed for vehicular access and a trail network that connect with trails planned within the Preserve Specific Plan area.	NOP	01/22/2007

2006121097	Vine Street Towers Project Los Angeles Community Development Agency Los Angeles, City of--Los Angeles Development of the project site includes the demolition of a street level public parking lot and adjacent flower shop/locksmith and hamburger restaurant and the construction of a mixed-use development. The mixed-use development would include a nine-story office building, with a ground floor divided into lobby (1,400 square feet) and restaurant spaces (6,950 square feet). Above the ground floor lobby and restaurant space would be seven floors of office space, at 14,000 square feet per floor for a total of approximately 98,000 square feet of office space, plus a top level penthouse at approximately 7,000 square feet. The proposed project would include approximately 123 parking spaces contained on three subterranean levels on-site; 60-100 parking spaces would be provided off-site. The structure would be one tower, nine stories tall with three subterranean floors, at a maximum height of 120 feet.	NOP	02/02/2007
2006121091	Tucker Self-Storage San Diego, City of San Diego--San Diego Public Right-of-Way Vacation, Community Plan Amendment (CPA), Rezone, Planned Development Permit (PDP), and Site Development Permit (SDP) to create two parcels from one existing, 3.35-acre site for a 120,183 square-feet of self storage building at 9765 Clairemont Mesa Boulevard. The site is in the RS-1-1, IL-2-1, IH-2-1 and the Airport Environs Overlay Zones, within the Tierrasanta Community Plan area. The project entails a 55-year ground lease of the property pursuant to the Settlement Agreement in the case of TRP Limited v. City of San Diego, et al, SCC No. 578191, approved by City Council Resolution No. 274804 on December 4, 1989.	Neg	01/22/2007

	be conveyed from the Clifton Court Forebay at the Sacramento-San Joaquin Delta, through the SWP facilities, to the Cross Valley Canal turnout in Reach 12E of the California Aqueduct or to other points of diversion mutually agreed to in writing by DWR and the CVC contractor. The CVC water supplies may also be conveyed to the San Luis Reservoir as part of the federal share of storage for later release and delivery to the CVC contractor.		
2006022073	Turlock Irrigation District Regional Surface Water Supply Turlock Irrigation District Hughson--Stanislaus The Turlock Irrigation District's proposed Regional Surface Water Supply Project would construct facilities to treat and deliver Tuolumne River water for use by communities that currently rely exclusively on groundwater for urban water needs. These communities include Ceres, Hughson, Keyes, south Modesto and Turlock. The proposed project would construct a water treatment plant near the intersection of Geer Road and Hatch Road, which is near Hughson in unincorporated Stanislaus County. The project would deliver treated water to the participating communities by constructing new pipelines between the proposed plant and those communities within existing roadways and canal rights-of-way. Water would be diverted between the proposed plant and those communities primarily within existing roadways and canal rights-of-way. Water would be diverted from the river and delivered to the proposed water treatment plant site using existing and planned facilities associated with the Infiltration Gallery at Special Run Pool 9 Project.	NOD	
2006041151	Santa Clarita Valley and Antelope Valley Trails Update Regional Planning, Department of Santa Clarita, Palmdale--Los Angeles The Trails Plan Update provides for an additional 140 miles of trails in the Santa Clarita Valley and 50 additional miles of trails in the Antelope Valley. The Update designates trail alignment, but trail construction is not part of this project. All County trails are multi-use trails (excluding motorized vehicles) therefore, equestrians and hikers will benefit from these new extensions to the County trail system.	NOD

	along Forest Avenue and Laguna Canyon Road from City hall to the Art-A-Fair site. This portion of the site will continue to be used for the Saturday Farmer's Market.		
2006052162	Westfield Valley Fair Site Development Permit File No. H06-027 and General Plan Text Amendment File No. GP06-T-04 San Jose, City of San Jose--Santa Clara The proposed project consists of a General Plan Text Amendment to increase the allowed building height on the site from 50 to 65 feet and a Site Development Permit to allow approximately 650,000 gross square foot expansion of the existing Westfield Valley Fair Shopping Center to accommodate up to two new anchor stores and additional retail space. The project also includes the demolition and reconstruction of two existing parking structures and the relocation of three outbuildings. Three existing commercial buildings would be demolished and relocated as part of the project, including two bank buildings located along the southern boundary of the site and the grocery/drug store building located near the southwestern corner of the site. The bank buildings are currently located within the site and the grocery/drug store building located near the southwestern portion of the site in the City of Santa Clara. The grocery/drug store building would be relocated to the north of the existing building, and would remain within the City of Santa Clara. The project also includes access and circulation improvements, including the relocation of a southern driveway along Stevens Creek Boulevard so that it would align with South Baywood Avenue. This realignment would require the relocation of the traffic signal on Steven's Creek Boulevard. Other access and roadway improvements are also proposed along the western boundary of the site along Winchester Boulevard and could include the relocation of the existing traffic signal at Dorcich Street.	EIR	02/08/2007
1999062020	Placer Vineyards Specific Plan Revised Draft EIR (PEIR T200540651) Placer County Planning Department The Placer Vineyards Specific Plan project is a mixed-use master planned community with residential, employment, commercial, open space, recreational and public/quasi-public land uses. The Plan provides for 14,132 homes in a range of housing types, styles, and densities. At Plan build out, projected to occur over a 20 to 30-year time frame, Placer Vineyards will have a population of approximately 33,000 people, 422.5 acres of employment centers, 140 acres of retail commercial centers and approximately 930 acres of new parks and open space. 2006121101	<p>Highway 86 Domestic Water Transmission Main Coachella Valley Water District Coachella--Riverside</p> <p>The proposed project will supply the Salton City area with groundwater from a more reliable source located approximately 16 miles to the north of the Riverside/Imperial County Line. The 30-inch diameter pipe will convey domestic water supplies from the Thermal area to the Imperial County service area including Salton City. The proposed route of the pipeline parallels Highway 86 in the west shoulder within the existing highway right-of-way (ROW). The 30-inch diameter pipe will connect to an existing 18-inch diameter line on the east side of the Highway 86 at Avenue 58 and cross to the west side of Highway 86. From Avenue 58 south to Avenue 62, the pipe will be aligned approximately 26 feet from the existing centerline within the highway ROW. Approaching Avenue 66, the proposed pipe will be located 35 feet from the centerline, which is 15 feet from the edge of asphalt and 15 feet from the ROW line. The pipe follows this alignment from Avenue 66 south to Avenue 82, a distance of approximately 8 miles. At Avenue 82, Highway 86 becomes a four-lane expressway, Highway 86S, and the highway ROW expands to 100 feet from the centerline. The proposed pipe will be located within the existing highway ROW approximately 15 feet from the edge of the ROW line from Avenue 82 south to Avenue 86 (Riverside/Imperial County Line).</p>	Neg	01/24/2007

2006061102	Warehouse/Distribution Facility, South Portion of Phase 4 - California Commerce Center, PSPA06-006 (Specific Plan Amendment) Ontario, City of Ontario--San Bernardino The development of the South Portion of Phase 4 of the California Commerce Center Specific Plan includes approximately 99 gross acres of land located in the southwest portion of the California Commerce Center (CCC), which is located in the eastern portion of the City of Ontario. The project requires a Specific Plan Amendment, subdivision of land, dedication of public right-of-way, grading, and improvements including: completion of public infrastructure surrounding the net project site (96.25 acres), construction of a portion of Francis Street and Dupont Avenue and construction of approximately 1,970,150 sq. ft. of office/industrial space within seven separate buildings. All buildings except for Building 1 will consist of one-story concrete tilt-up and glass construction. Building 1 will be two-stories consisting of either concrete tilt-up and glass construction or light framing with plaster exterior for retail and office uses. Buildings 2 through 5 will be constructed primarily for warehouse and industrial uses with ancillary offices. Perimeter and interior landscaping will be provided for each building site. The alignment of the existing railroad spur will remain. All loading areas facing street frontages will be concealed by a screen wall.	SIR	02/08/2007
1980071615	TM 5093TE, P96 , Log No. 96-08-007 San Diego County, Department of Planning and Land Use --San Diego The project is a Habitat Loss Permit for a 9 lot residential development of an 80.5-acre site in the Rancho Cielo Specific Plan area. Most of the project's required road and utility infrastructure was considered and constructed as part of previous projects (TM4229-3 and OMWD Public Sewer Pump Station No. 3). A Habitat Loss Permit under the Natural Communities Conservation Program is required prior to issuance of grading and improvement plans.	NOD

2004061105	Santa Barbara Cottage Hospital Foundation Workforce Housing Project Santa Barbara, City of Santa Barbara--Santa Barbara The proposed project would remove the existing St. Francis Hospital complex, including the main hospital, convent, central plant, and other ancillary structures, totaling approximately 189,000 square feet, and replace them with 115 residential condominiums that would cover 5.94 acres of the 7.39 acre site. Within the remaining 1.45 acres, the existing elderly care facility, Villa Riviera, would remain, but the parcel containing it would be adjusted to a size of approximately 31,500 square feet. The remaining lands zoned R-2, Two Family Residential, would be re-configured into three lots of approximately 10,500 square feet each and the two existing residences on these R-2 parcels would be demolished. The R-2 lots have the potential for two residences on each lot, for a total of six residences, no development is proposed at this time. Parking for the project would be accordance with zoning parking requirements. A total of 11 spaces would continue to be provided for Villa Riviera and 254 parking spaces for the 115 proposed condominium units. Vehicular access to the three reconfigured R-2 parcels would be directly from Grand Avenue. Primary vehicular access to Villa Riviera and to guest parking for this facility would continue to be provided from an existing private driveway connecting to the terminus of Arrellaga Street; existing secondary access to the facility from Grand Avenue would also be maintained. Internal vehicular circulation for the new residential development would be provided by a system of private drives and improvements to Salsipuedes Street connecting to Micheltorena and Arrellaga. <u>Documents Received on Tuesday, December 26, 2006</u>			
2006128234	Humboldt 101 Safety Caltrans #2 --Humboldt Caltrans is proposing a Safety Project to modify super elevation and place Open Graded Friction Course (OGFC) in Humboldt County on SR-101. The project will modify the super elevation by grinding pavement and placing dense graded asphalt concrete in the curve at PM R9.5/R9.7, then pave OGFC the entire length of the project, place ground-in rumble strip along the centerline and shoulders, reconstruct existing metal beam guard rails (MBGR) and end treatments.	NOE	
2006128235	Repair Rehab Seismic Retrofit Bridges Caltrans #2 --Siskiyou Using state and federal funds the California Department of Transportation and the Federal Highway Administration will repair and rehab and seismic retrofit the bridges over the Shasta River on I-5 in Siskiyou County.	NOE	
2006128236	Emergency Repair Scour Holes Caltrans #2 --Tehama Using only state funds the California Department of Transportation will conduct emergency repair of scour holes undermining the abutment footings at the Sheep Gulch Bridge on State Route 36 in Tehama County.	NOE	
2006128237	Whiskeytown Weigh Station Caltrans #2 --Shasta This project entails minor improvements at the Whiskeytown Weigh Station in Shasta County, at PM 12.6. Among the work to be completed is overlay of Asphalt Concrete (AC) over deteriorated AC pavement. In addition, cracked Portland Cement Concrete (PCC) pavement would be replaced. A light pole will also be relocated. Any excess material generated by construction will be placed at a previously cleared disposal site located near the project area. No additional right of way will be required. No sensitive species or archaeological resources will be impacted by construction of this project.	NOE	
2006128238	Fourth District Board Office New Space -- Project 123588 Equalization, Board of Monterey Park--Los Angeles Office space for new Fourth District board member and staff.	NOE	
2006128239	Streambed Alteration Agreement (1600-2006-0210-R5) Regarding Walnut Creek Encroachment Restoration Fish & Game #5 San Dimas--Los Angeles The Operator proposes to alter the streambed to restore slopes of the Walnut Creek to pre-1992 conditions. The applicant suffered some slope damage during 1992 flooding within Walnut Creek, in order to protect the property from further damage the applicant began to install rock filled gabions and additional rubble material. This activity continued for a number of years and resulted in extension of the parcel into Walnut Creek and encroachment into Walnut Creek County Park. In order to stop the work and to cease the removal of the encroachment, the applicant was tried in Criminal Court and found guilty of trespass on public property and is put on probation until the encroachment is removed.	NOE

2006051002	University Business Park Specific Plan San Marcos, City of San Marcos--San Diego	EIR	02/09/2007
------------	--	------------	------------

The proposed project encompasses 108 acres and would include a Business Park, multi-family residential, open space, park, and associated infrastructure improvements. The proposed project includes the 86-acre Specific Plan area and approximately 22 acres of off-site (outside the specific plan area) infrastructure improvements that are included as part of the proposed project, for a total project area of approximately 108 acres.

2003091106	Monte Verde (aka Costa Verde) San Diego, City of La Jolla--San Diego University Community Plan Amendment, Costa Verde Specific Plan Amendment, Vesting Tentative Map, Planned Development Permit, Site Development Permit, Public Right-of-Way and Easement Vacations, and Right of Entry Permit for the construction of four high-rise residential buildings with a combined area of 1,771, 000 square feet, and 1,852 parking spaces in subterranean parking structures. Tower height would range from 390 and 395 feet above existing ground level and between 32 and 35 stories. The towers would consists of 800 units of a combination of for-rent apratments an dfor-sale condominiums, or entirely condominiums depending on market conditions.	FIN

2005122032	Stevens Creek Trail Pedestrian / Bicycle Overcrossing of Moffett Boulevard, Project 04-33 Mountain View, City of Mountain View--Santa Clara	MND	01/25/2007
------------	---	------------	------------

The City of Mountain View proposes to construct a pedestrian and bicycle overcrossing of Moffett Boulevard on the Stevens Creek Trail. The overcrossing would provide an alternative to the existing trail crossing of Moffett Boulevard, reducing conflicts between cyclists and motor vehicles exiting from northbound SR 85 and turning right onto Moffett Boulevard. To fulfill the goals and policies of the 1992 Mountain View General Plan, the City Public Works Department developed the Mountain View Bicycle Transportation Plan in 2003. The proposed project was identified in this plan and was ranked as second highest priority for city funding.

The new overcrossing will consist of a steel truss bridge with three supports and two concrete abutments with concrete retaining walls supporting ramps for new asphalt trail sections on both ends. The ramps will rise at a maximum slope of 4.9% to a bridge that will span approximately 146 meters. The bridge will provide 5.2 meters of vertical clearance over the State Route 85 off ramp and 5.1 meters minimum vertical clearance over Moffett Boulevard. The trail will begin to climb above the existing ground level approximately 183 meters to the south of Moffett

<u>Documents Received on Wednesday, December 27, 2006</u>			
	Boulevard and return to ground level approximately 152 meters on the north side of Moffett Boulevard adjacent to the existing pedestrian trail.		
2006121107	Modification #1 to PD #2, Map 79-27 Kern County Planning Department --Kern The proposal is to intensify industrial uses by adding a concrete batch plant on the undeveloped portion on the property. The existing development includes a 10,500 square foot shop building, a home for an on-site caretaker, a 760 square foot parts building, and a 7,700 square foot pole barn for outside storage vehicular inspection. The batch plant will include a 600-barrel (bbl) cement/fly ash silo and one 328 bbl cement silo.	MND	01/25/2007
2006121109	Southern California Edison: Etiwanda Peaker Project, Rancho Cucamonga South Coast Air Quality Management District Rancho Cucamonga--San Bernardino SCE is proposing to build a small electricity generating unit called a "peaker" that will be capable of producing up to 45 MW of electricity on short notice during periods when the local electrical system needs power and local voltage support. The peaker unit has blackstart capability and consists of a state-of-the-art General Electric natural gas-fired turbine generator plus a selective catalytic reduction system and an oxidation catalyst to reduce emissions to levels that meet or exceed all applicable local air quality emission standards. This peaker project will be located on existing SCE property adjacent to the Etiwanda substation in the City of Rancho Cucamonga. SCE chose this location because a natural gas supply line was nearby and because SCE was directed to site this peaker where it would provide the additional electricity supply and voltage support for the grid most efficiently. The proposed project is expected to create significant adverse impacts to air quality during the construction phase but the impacts will be mitigated to less than significant. No other environmental topic areas will generate potential significant impacts.	MND	01/26/2007
2006121112	Southern California Edison: Mira Loma Peaker Project, Ontario South Coast Air Quality Management District Ontario--San Bernardino SCE is proposing to build a small electricity generating unit called a "peaker" that will be capable of producing up to 45 MW of electricity on short notice during periods when the local electrical system needs power and local voltage support. The peaker unit has blackstart capability and consists of a state-of-the-art General Electric natural gas-fired turbine generator plus a selective catalytic reduction system and an oxidation catalyst to reduce emissions to levels that meet or exceed all applicable local air quality emission standards. This peaker project will be located on existing SCE property at the Mira Loma substation in the City of Ontario. SCE chose this location because a natural gas supply line was nearby and because SCE was directed to site this peaker where it would provide the additional electricity supply and voltage support for the grid most efficiently. The proposed project is expected to create significant adverse impacts to air quality during the construction phase but the impacts will be mitigated to less than significant. No other environmental topic areas will generate potential significant impacts.	MND	01/26/2007

2006052075	North Market Lift Station Upgrade and Force Main Replacement Project Redding, City of Redding--Shasta The project proposes using horizontal directional drilling and boring techniques to install two new sewer pipelines approximately 65 to 95 feet beneath the river bed, approximately 20 feet apart.	NOD	
2006071009	California City Prison Project California City California City--Kern Construction and operation of a 550-bed Modified Community Corrections Center. Alternatively, construction, and operation of an approximately 1,596 bed detention center to meet federal demands for detention space.	NOD	
2006081148	8th Amendment to Include Additional Areas in the Redevelopment Plan Area Victor Valley Economic Development Authority Adelanto, Apple Valley, Victorville--San Bernardino Victor Valley Economic Development Authority (VVEDA) has identified 30,166 acres of noncontiguous areas to be considered for addition to the existing 60,518-acre Victor Valley Redevelopment Project Area (established in 1993) by amendment. The parcels included within the proposed Added Area contain deteriorated properties, inadequate infrastructure and blighted conditions that the powers and tools of redevelopment has the potential to revitalize and upgrade.	NOD	
2006092099	Michelon General Plan Amendment, Rezone and Parcel Map Weed, City of Weed--Siskiyou The proposed project is a minor subdivision of approximately 92 acres in the City of Weed to create four parcels and a remainder. In addition to the minor subdivision, the proposal includes a general plan amendment to change the designation of approximately 23 acres of the property from Residential Single Family - Low Density (5,400 sf minimum parcel sizes) to Rural Residential (five-acre minimum parcel sizes), a zone change consistent with the proposed general plan amendment, and a Conditional Use Permit so that the property owners may park heavy equipment associated with their trucking business on a portion of the approximately 23-acre parcel.	NOD	
2006102099	Addie Meedom Cottage - Use Permit for Multiple Dwellings - UP0709C Del Norte County Planning Department Crescent City--Del Norte Use Permit for Multiple Dwellings (Apartments) and a Boundary Adjustment on two parcels of land that total 9.3 acres. The project area is located on the east side of Parkway Drive and south of the Parkway Drive and Washington Boulevard intersection. The northern portion of the project site is developed with the Addie Meedom House, a 48 assisted living facility. The applicant proposes to construct 62 apartments or cottages on the southern portion of the project site that will be rented to independent living seniors. The project will be completed in three phases with the first phase being the construction of 12 apartments, the second phase being the construction of 30 units and a community building and the final phase being the construction of the 20 remaining units. Access to the project would be from the existing driveway/access serving the Addie Meedom House for phase one. A new encroachment south of the Addie Meedom House access will be constructed as part of phase 2. The Addie Meedom House is currently served by public water and an on-site sewage disposal system. The applicant proposes	NOD

	to construct an extension of the city sewer system to the project site to serve the Addie Meedom House, the proposed project and the surrounding area. The applicant is working with the City of Crescent City, the County and Caltrans to obtain all necessary permits to make the necessary improvements. A condition of the project approval will be the preparation of an engineered grading and drainage. Any surface runoff will be pretreated prior to discharge. A proposed boundary adjustment would adjust the lot lines of the two parcels to allow the first phase of the apartments to be constructed on same physical parcel as the Addie Meedom House.		
2006102121	Zone 7 Patterson Pass Water Treatment Plant (WTP) Ammonia Facility Replacement Project Zone 7 Water Agency Livermore--Alameda As part of the disinfection process, Zone 7 uses chloramination to minimize formation of disinfection byproducts and chlorinous taste and odors, and to maintain a disinfectant residual in the distribution system. The proposed project includes the removal of the existing gaseous ammonia system at the Patterson Pass Water Treatment Plant (WTP) and replacement with an aqua (or liquid) ammonia system (using a 19 percent ammonia solution). The existing gaseous ammonia delivery components are near the end of their service life and the proposed project is intended to replace the existing system in order to improve the reliability of plant operations and employee and public safety. New facilities proposed under the project include an aqua ammonia tank and storage building, a chemical fill station and underground containment structure, and two additional feed lines. No substantive changes in treatment plant capacity or operation are anticipated as part of the proposed project.	NOD	
2006111038	O'Connel Residence; PLN0060271 Monterey County Planning & Building Inspection Carmel--Monterey Use Permit to allow the removal of 14 protected oak trees to allow the construction of a 1,472 square foot, one-story, single family residence and 616 square foot garage; and a new driveway on a 10-acre parcel.	NOD	
2006129015	Don Chapin Company The Monterey County Planning & Building Inspection Salinas--Monterey Use Permit for development on a 30% or more slope to allow the construction of a 14,600 square foot shop building and associated site improvements for a contractor's yard on a 9.8 acre lot. Grading is approximately 9,320 cubic yards of cut and 1,090 cubic yards fill.	NOD	
2006129016	TT-06-01 (16247) Fish & Game #7 Victorville--San Bernardino The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0183-R6 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Covenant Development. The applicant proposes to construct on a 40-acre site for a single-family residential development consisting of up to 203 single-family residential homes and associated infrastructure. The scope of work will include placing rip rap on the banks of Oro Grande Wash.	NOD

2006084002	Routine and Recurring Unmanned Aerial Vehicle Flight Operations at Edwards Air Force Base U.S. Air Force Lancaster--Kern, Inyo, San Bernardino The proposed action is to continue to conduct routine and recurring UAV flight operations in a manner similar to manned aircraft. UAVs would operate primarily in R-2508 and R-2515 special use airspace and conduct flight operation in accordance with AFFTC and NASA mission requirements. Up to 40% of the flight operations would transition to other local Department of Defense Ranges including the Navy Sea Range and Nellis AFB Test and Training Range.	FIN	
2006122102	Eureka Bulk Terminal Phytoremediation Eureka, City of Eureka--Humboldt CBE, LLC proposes to plant up to 550 trees at the Eureka Bulk Terminal as part of the site remediation project to remove petroleum hydrocarbons from soil and groundwater at the site. The trees will be planted in existing paved portions of the site in patented proprietary TreeWell® Systems, which direct the roots to grow into the shall groundwater table rather than just below the soil surface. The contractor that is selected to implement the phytoremediation plan will be trained and authorized to work with hazardous materials.	MND	01/26/2007
2006121110	R2004-00998-(5), RZC20040004-(5) Los Angeles County Department of Regional Planning --Los Angeles A request for a Zone Change from A-1-10,000 to C-3-DP on 1.95 acres and a Conditional Use Permit to authorize a single story, retail commercial complex and storage areas. A 10,800 square foot building will be constructed in the center of the property. One covered and one enclosed 1,600 square foot (each) storage area will be constructed in the southwest corner of the property. The subject property is located on the south side of Sierra Highway, west of the intersection between Sierra Highway and Crown Valley Parkway and is located between Sierra Highway and the Antelope Valley Freeway. The site shall be accessed via two driveways - one ingress and one egress - on Sierra Highway, a county designated major highway. Fifty-one parking spaces are shown on the site plan. Proposed operating hours are a single shift between 9 am through 6 pm daily with 6 people per shift and will employ up to 10 people. Approximately 2,100 cy of cut and 1,880 cy of fill occur on site. The remaining 300 cy will be exported.	Neg	01/26/2007

2006102125	Landis Final Map Subdivision Humboldt County Community Development Services --Humboldt A Subdivision involving five parcels, one of which has been determined to be created in violation of the Subdivision Map Act. Parcel 509-103-06, 509-103-11, and 509-103-12 are all currently developed with a single-family residence on each and were created by Parcel Map utilizing a lot frontage exception for the creation of a flag lot. Parcel 509-103-07 is currently developed with a single family residence and detached second unit. Parcel 509-103-10 is currently vacant. The project will merge APN 509-103-10 (created illegally) with 509-103-11 and add an additional 831 square feet to parcel -11. It will also create an additional parcel for a total of three parcels of approximately 10,692 square feet, 10,270 square feet, and 14,250 square feet each. Parcel 509-103-12 will remain unchanged. As the subject parcels are directly adjacent to a previous subdivision and under the same ownership, this project must be processed as a Final Map Subdivision regardless of the number of parcels being created. Water and sewer will be provided by McKinleyville Community Services District.	NOD	
2006111022	San Elijo State Beach Replace Lifeguard Headquarters Project Parks and Recreation, Department of Encinitas--San Diego This project replaces and enhances an existing lifeguard headquarters located on a bluff at the southern end of San Elijo State Beach. The bluff on the beach side of the lifeguard headquarters has been eroding and is currently at a point where it is jeopardizing the building's structural stability. The larger replacement lifeguard headquarters facility will be built behind the bluff and to current codes and standards. It will also provide a public contact and first-aid facility. The observation tower will extend over the bluff to provide visual monitoring of the ocean.	NOD

2006012101	Indian Creek Rehabilitation Project Trinity County Planning Department --Trinity The Trinity River ROD channel rehabilitation component focuses attention on the need to physically manipulate the bank and floodplain features of the Trinity River between River Mile 112.0 (Lewiston Dam) and River Mile 72.4 (North Fork Trinity River). The channel reconstruction is intended to restore the Trinity River's historical and alternate point bar morphology and habitat complexity to improve fishery resources. The Indian Creek Rehabilitation project: Trinity River Mile 93.7 to 96.5 is the third channel rehabilitation project already built or in the planning stages that will work together to enhance river processes and to increase fisheries habitat downstream of Lewiston Dam. This project has no specific flood control objectives. The project purpose and need is to provide increased juvenile salmonid rearing habitat on the mainstream Trinity River, and to reduce flow impacts to homes and other human improvements located adjacent to the Trinity River, from implementation of ROD flows.	EIR	02/13/2007
2006081083	Imperial County Cilion Ethanol Production Facility Imperial County Planning Department --Imperial The Cilion Ethanol project proposes to develop an 84.30-acre parcel with a facility for the production of up to 110 million gallons of ethanol and distiller grains per year (mgy). The project will receive corn, grain, etc. (raw product) via rail which will be used to produce ethanol (processed product) for off-site use as an additive in motor vehicle fuel and wet distiller grains for use locally as cattle feed. Project structures would include a grain processing building, a fermentation building and tanks, a distillation, drying and evaporation building, ethanol storage tanks, an evaporation pond, and a natural gas-fired steam production facility.
